

Are you a caregiver?

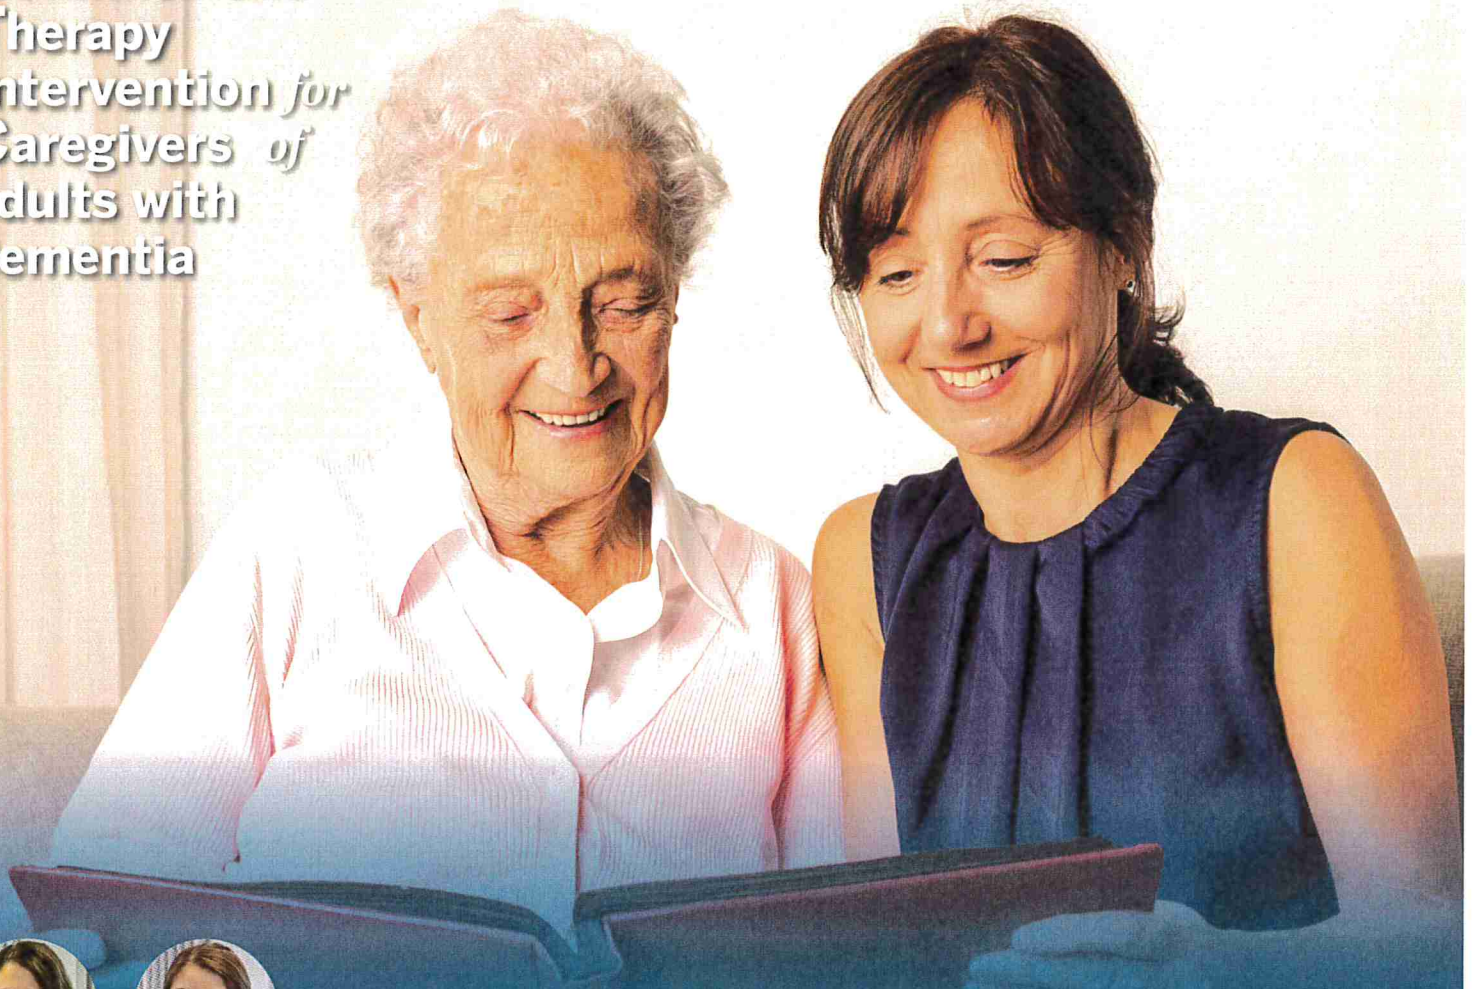

We are testing a skill-building telephone program to support you in caring for your loved one with Alzheimer's Disease or other form of dementia.

If you take part in this research study, you would:

- take a brief survey over the phone to see if you qualify for the study
- complete 6 weekly 1-hour telephone sessions with a trained study team member
- complete a phone interview after the program
- take 3 brief follow-up phone surveys over 6 months
- earn up to \$125 in gift cards for your participation
